PROJECTS

Placement Predictor App

Built an AI ML project in which we have created a salary and placement prediction app using prior data set and using ML models like **linear regression and classification** model. I'm attaching here my repo link so you can check my project and others. **GitHub:** <https://github.com/92haroonkhalid>

Portfolio Website

- 92haroonkhalid.site — HTML, CSS, Java

Developed a responsive personal portfolio website to showcase skills and projects. Designed a clean UI with custom styling, interactive sections, and responsive design.

Other Projects

- Created a console-based quiz system with scoring logic and multiple-choice questions for basic learning and testing.
- Successfully ran ad campaigns for local businesses using Meta Ads, achieving increased reach, engagement, and leads.
- Edited promotional and social media videos using CapCut and Premier Pro for small businesses and personal brands.
